

## **MHE Hippo Hand Pallet Trucks**

Our MHE Hippo trucks are your handy helpers for floor level pallet handling. The hydraulic pump lifts loads as high as five tonnes with ease and the tiller handle comes with comfort grip and three-step control for lifting, lowering and neutral position. A built-in foot lever provides another convenient way to lower goods with the foot. The trucks are robust and easy to manoeuvre with their tapered fork tips and a large steering wheel. All wheels are customized as per your application, either as single or double wheel in Nylon (for hard floors) or PU (for smooth and clean floors). To ensure a long life, twelve lubricating grease nipples make it easy to maintain the moving parts.
